DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 19, 20 and 22-30 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement and as failing to comply with the enablement requirement. There is no support in the originally filed application for the new recitation in claim 19, "the movement of only the corresponding magnet imposes a magnetic influence on the stirrer in the corresponding sample vessel". As shown in Fig. 6, and explained in [0035] to [0037], each of assemblies 152-1 and 152-5 involve one or a pair of magnets (154). Several magnets are in the general vicinity of each stirrer. While the influence (magnetic field strength) of a magnet decreases with distance from the magnet, there is no distance at which one can say the magnet has no influence. See "The Magnetic Dipole interaction as Measured by Spring Dynamometers" by Castaner et al. and "Inverse-Square Law Experiment" by Lufburrow.

Response to Arguments

3. Applicant's arguments are moot in view of the new grounds of rejection.

Conclusion

4. Applicant's amendment necessitated the new grounds of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP

Art Unit: 1723

In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
